MULTITUDES VIEWING THE

Procession of Men, Women, and Children Filing Through City Hall-Novel Sights-Virginians En Route-Notes.

EW York, Ang. 6.—People loitered in City Hall Park all night. They were first in the line that soon after 6 o'clock this morning began filing past the remains of Gen. Grant as they lay in state in the city hall. There were no great throngs awaiting admission. Two lines of policemen were placed across the plaza from the city hall entrance to the fountain. These formed a passageway RW YORK, Aug. 6 .- People loitered through which four men might walk abreast and along which all day the visitors to the remains should pass.

THE PROCESSION was almost a lock step and the tramp was quick. The dammed up crowd that had waited at the fountain circle for the gates to open was being drained away through the channel between the police lines to the half-antrance. Many women caused delay. They must needs ex-amine every detail and would fain put their noses to the flowers. Men and boys

The line was being hurried through the hall at the rate of 140 per minute, and for a little while the pace was set at 170 per minute, which rate if maintained for an hour would have passed 10,200. But this could not be done, To accomplish it the visitors must be hurried through and past the

This rate of speed comported illy with the dignity of the occasion and more time was given, but the accretions were too rapid to be cared for.

The constitution of the line began changing again at about 10 o'clock. Business men, brokers, and merchants were coming down town. From them the line received enough to give it a distinctive complexion. As the morning wore on to midday more WOMEN, YOUNG AND OLD,

appeared in the line of visitors. Many carried little handbags and some had been shopping and their discomfort was increased by the care of parcels and

Farmers there were in the line un-doubtedly, and many had come to town with entire families of children in order that in years to come they might have it to say that they had seen the remains of Gen. Grant.

Cholera Spreading and the Panic World Will Be Assured-Compliments by Cable.

Lospon, Aug. 6 .- Lord Randolph Churchill, secretary of state for Iudia, introduced the Indian budget in the house of commons this evening. He announced a deficit of £1,029,000, which, he said, had resulted from an outlay £461,000 greater than the estimates, while revenue had decreased £568,000. The difference, he clared, would have been saved if the late government had not abandoned the Quetta railway. He thought it unfair and unjust to make a financial statetair and unjust to make a financial statement under such depressing circumstances. The late government, not Lord Salisbury or Lord Dufferin, was to blame for the state of affairs. He condemned the Marquig of Ripon, the late viceroy of India, for not looking ahead. The extra permanent military charge, he said, would probably reach £2,000,000 yearly. He declared that economy was the only way of meeting the deficit.

The speaker adverted feelingly to the horrors of slavery and to treatment of the the horrors of slavery and to treatment of the negro immediately after the war. Darcy had been collecting money from the patrons of his employer. These collections he placed in a large wallet, and carried it in an oatside pocket of his jacket. At Thirteenth street and Pennsylvania avenue he was run into, apayvenua avenue he was run into, apparently intentionally, by a cab driven by George Northridge. Inside of it were seated William Northridge, a brother of the driver, and Henry Schulteis. The cab driver, without saying a word, struck Darcy three violent blows on the breast with the butt end of a loaded whip. with the butt end of a loaded whip. Darcy, seeing that the cab was uninjured, and not desiring to create trouble, drove away. At Tenth street he was overtaken by the cab; the driver again hi Darcy with the butt of his whip on the face and head, inflicting painful wounds. At the same time William Northridge jumped out of the cab, seized Darcy by the throat, and snatched his wallet, containing \$48.91, out of his pocket. He then jumped into the cab and the driver drove rapidly away.

Officer Weedon happened to be at the corner of Eleventh street and Pennsyl-

corner of Elsventh street and Pennsyl-vania avenue, and sceing persons run-ning in that direction ran himself, and on learning what the difficulty was jumped into one of the Union Transfer from him and did everything to prevent

the horse from going on.

A gentleman who happened to be passing along with his buggy took in the situation at a glance and told the officer to get into hisbuggy, as the driver of the hansom was purposely trying to keep the officer from catching the thieves. At Seventh and L streets the cab and

occupants were overhauled by the officer, who put them under arrest and locked them up at the fifth precinct station. It was observed that the hansom driver followed the officer in the buggy, and did his best to pass by him in order to warn the fugitives. to warn the fugitives.

The Northridges seeing that they were being closely pursued threw away the wallet and its contents. A gentleman who saw them throw away a \$10 bill reported the fact to the police, and the bill was subsequently found. At the

The prisoners have bad police records and have been arrested several times. Officer Weedon deserves credit for his prompt and effective work. In twenty minutes after the assault and robbery he had his prisoners under lock and key. The collision is believed to have been a ruse on the part of the driver. The police think his intention was to hit Darcy's exposed pocket book and cause it to fall to the ground, while his confederates, in the excitement, would rush out of the cab, pick it up, and then be driven rapidly away before Darcy would be able to realize his situation. Several witnesses will be in court to day to testify

The members of the committee ray that their complaint is not against Mr. Vanderbilt nor Drexel, Morgan & Co., but is against the syndleate that sold the bonds.

Wall street was abundantly supplied with dispatches from Baltimore yesterday, the substance of some of which was that the Baltimore and Ohio railroad has made arrangement with Reading by which the former guarantees 4 per cent on the New Jersey Central stock, and that the Baltimore and Ohio has thus secured a direct connection with New York. An effect was made resterday by stock lob-bers to create the impression, by circulating telegrams from Chicago, that the 3t, Paul carnings for the fourth week of July showed at increase of \$53,555, instead of a decrease, as published the other day. At a decrease, in company in New York it was stated that the original report (showing a decrease) was the correct one.

Correct one.

It is generally understood that the West Shore reorganization will be carried out as proposed by Brexel, Morgan & Co. At their office yesterday it was stated that their most sangatine hopes in regard to the matter had been fully realized, but they declined to say what amount of bonds had been subscribed to the scheme.
